One of the classic rarities with extremely rare reverse die. From the Mark Glazer and Fayerweather collections. (3000-4000)

33 - 71/467 a R9 Raw AU Details Retoned from cleaning. 1863 Indian Head, The Federal Government a National Currency, Free Trade And Human Rights. The obverse die is very rare with this being its most frequently encountered combination. The popular reverse die is rare in its own right. A Raw EF+ brought $1,500 in our February 2014 auction. From the Mark Glazer collection. (1500-2000)

34 - 73/ 74 a R8 Raw UNC Details With a scrape on reverse cheek. 1863 Indian Head doubleheader. Despite the rarity rating this is just the second example we have seen offered publicly. (2000-3000)

35 - 84/148 a R7 Raw EF Indian Head with all stars and no date with an unknown bearded gentleman on the reverse. It has been speculated that this is John Stanton himself. From an image, supplied by the current president of the firm's current incarnation Long-Stanton Manufacturing, we think that is a distinct possibility. That period picture of the token maker shows a strong resemblance including a balding head and beard. A raw EF brought $1,105.50 in our June 2005 sale. From the Dick Punchard collection. (750-1000)

36 - 91/373 a R7 Raw EF Details With some short scratches around the E in Cent. Indian Head 1863 Not One Cent. Exceedingly rare reverse die only used on this variety in Patriotic series and not used at all as a Store Card. From the Robert Williams collection earlier from our web site in March 2013 at $500. (500-750)

37 - 93/362 a R2 Raw MS63 Trace Red with weak date as usual. 1863 Indian Head Not One Cent signed H on the obverse for die sinker Charles D. Horter and signed on the reverse JGW thought to be the initials of engraver James Wilson or of Horter's neighbor and book seller John G. Wells. It is fairly unusual to have the combination of two differently signed dies. From the Dave Bowers collection. Data: 180°, 40.6 grains, 19 mm. (50-75)

38 - 94/363 a R6 Raw VF+ Better than average strike for variety. 1863 Indian Head Not One Cent. Two scarce dies. From the Dave Bowers collection. Data: 70°, 43.8 grains, 19.3 mm. (100-150)

39 - 96/144 a R9 Raw MS64 40% Red and sharply struck. 1864 Indian Head signed Key Phila on head band with Ulysses Grant on reverse. Listed in the new Patriotic book as Possibly Non-Contemporary as the Grant die may date to after the Civil War. Very rare, just the third we have seen offered. From the Dave Bowers collection. Data: 10°, 54.7 grains, 19 mm. (500-750)

40 - 96/144 b R9 Raw MS62 Trace Bright, feathers weak opposite Grant's high relief bust. 1864 Indian Head signed Key Phila on head band with Ulysses Grant on reverse struck in Brass. Listed in the new Patriotic book as Possibly Non-Contemporary as the Grant die may date to after the Civil War. Very rare, just the third we have seen offered. From the Dave Bowers collection earlier from Walt Korzick. (400-500)

41 - 98/291 a R5 Raw EF 1863 Union and Liberty Indian Head One Country. (50-75)

42 - 101/263 a R7 Raw VF 1861 Indian Head obverse Our Card reverse. Dies by Escherich with wonderfully crude die work and nearly always seen in low grade often with problems, this example being well above average in that respect. From the Dave Bowers collection. Data: 170°, 54.6 grains, 19.8 mm. (500-750)

43 - 103/293 a R6 Raw VF+ Normal weak reverse. Indian head No North, No South, No East, No West, One Country. Very scarce die variety. From the Dave Bowers collection. Data: 57.2 grains, 19 mm. (50-75)

44 - 103/375 a R4 Raw AU Indian Head 1863 Not One Cent. Much nicer than normally seen. From the Dave Bowers collection. Data: 200°, 58.3 grains, 19 mm. (50-75)

45 - 104/263 a R5 Raw EF Details With a few obverse planchet flaws as struck. Indian head Our Cent crudely made by Escherich of Chicago. From the Dave Bowers collection. Data: 190°, 67.3 grains, 18.7 mm. (75-100)

46 - 107/108 d R7 Raw MS63 120% Bright, typical late reverse die state with large die cud. Double headed 1863 George Washington token struck in Copper Nickel. From the Dick Punchard collection. (400-500)

Civil War Patriotic Tokens

48 - 115/115A f R8 Raw MS62 10% Bright. George and Martha Washington struck in Silver with Plain edge. Two very scarce dies, an NGC AU50 sold for $876 in our December 2016 auction. (1000-1500)

49 - 115/530 g R8 Raw AU With nearly full original Copper plating. George Washington Don't Tread On Me reverse die with oddly coiled snake. Struck in Lead with Copper plating as usually seen on pieces above VF. This example and 115A/530 were likely made by a different die sinker using the Lovett obverse die (115 and 115A) as patterns (similar to Higgins of Indiana Primitive fame). They have again been listed in the new Patriotic book. We sold a similar example that brought $913 in our April 2000 auction. From the Dave Bowers collection. Data: 170°, 82 grains, 20.5 mm. (1000-1500)

50 - 117/420 a R1 Raw MS63 Struck from worn dies with die rust, cracks and cud mint error above Washington's head. 1863 George Washington Exchange. A variety that is available in a number of different die states. From the Dave Bowers collection. Data: 170°, 46.7 grains, 19.3 mm. (50-75)

51 - 119/398 a R1 Raw MS63 George Washington with shield within star. From the Dave Bowers collection. Data: 180°, 46.2 grains, 19.5 mm. (75-100)

53 - 124/294 a R7 Raw EF Small lamination area at L of Lincoln. Abraham Lincoln President 1864 Freedom struck in Copper. Very scarce obverse die many times rarer than the 125, a Raw EF+ example brought $430 in our August 2015 auction. From the Robert Williams collection. (400-500)

54 - 125/294 d R7 Raw MS63 Trace Bright. Abraham Lincoln President 1864 Freedom struck in Copper Nickel. From the Dick Punchard and Cindy Grellman Wibker collections. (400-500)

55 - 127/248 b R3 Raw EF 1864 Abraham Lincoln OK struck in Brass. (100-150)

56 - 129/347 e R7 Raw UNC Details Holed for suspension and used as a campaign badge with original loop. 1864 Abraham Lincoln with shield and flags struck in White Metal. The vast majority of this variety come holed. From the Dave Bowers collection. Data: 0°, 39.4 grains, 18 mm. (300-400)

57 - 129/349 e R8 Raw MS62 Trace Bright. Abraham Lincoln 1864 with Cannons, Flags and Drums struck in White Metal. A Raw MS64 brought $825 in our December 2010 sale. From the Robert Williams collection. (500-750)

58 - 133/458 b R5 Raw VF Holed as usual. Lincoln and Liberty Good For Another Heat with ax in log. Dewitt AL 1864-43 From the Dave Bowers collection. Data: 350°, 27.8 grains, 19.3 mm. (100-150)

59 - 135/440 a R2 Raw MS63 10% Red with bisecting obverse die crack. For Our Country A Common Cause Now and For Ever with Andrew Jackson. From the Dave Bowers collection. Data: 170°, 45.1 grains, 18.6 mm. (50-75)

60 - 137/395 a R1 Raw AU+ Trace Red. Andrew Jackson This Medal Price One Cent. From the Dave Bowers collection. Data: 180°, 41.9 grains, 19.3 mm. (25-50)

61 - 138/256 a R4 Raw AU Obverse double struck. General George McClellan with Horrors Of War reverse. From the Dave Bowers collection. Data: 0°, 58.7 grains, 19.9 mm. (50-75)

62 - 142/0 e Die Trial R10 Raw MS63 20% Bright. Large irregular 27mm uniface die trial. George McClellan obverse die trial well centered on a large planchet, quite impressive. The planchet appears to have been made of scrap metal that had been used to test small numbers and eagle punches. We sold another similar Raw MS64 die trial for this die on a larger round planchet for $1,301 in our December 2017 sale. From the Mark Glazer and John J. Ford collections. (1000-1500)

63 - 142/347 e R8 Raw MS62 40% Bright and nearly Proof Like. General McClellan with Union shield and flags within wreath struck in White Metal. This variety often comes holed, this example fortunately escaped that fate. From the Robert Williams collection. (400-500)

64 - 144/282 a R9 Raw UNC Details 20% Red with some spots. Ulysses Grant with Flying Eagle 1863 struck in Copper. Listed in the new Patriotic book as Possibly Non-Contemporary as the Grant die may date to after the Civil War. Very rare, just the first we have seen offered. The reverse die is particularly rare and depicts an eagle or some other bird with oddly turned neck the result for poor artistry or an attempt at social commentary. The most affordable example of this die was a Raw EF+ 129/282 e that brought $706 in our June 2013 sale. This may bring less due to its Possibly Non-Contemporary status. From the Robert Williams collection. (500-750)

65 - 144/349 b Unlisted Raw UNC Details With a few small spots. US Grant with cannons, flags, rifles and drums struck in Brass with a reeded edge. This obverse die had been listed as non-contemporary but has been included again in the latest edition of the Patriotic book as possibly non-contemporary. This die combination is currently unlisted in any composition and although the reverse die was used in 1864 any future listing will likely also be listed as possibly non-contemporary. Very rare and just the second example we have recorded. From the Dave Bowers collection. Data: 350°, 51.9 grains, 18.4 mm. (300-400)

066

067

068

66 - 147/228 a R7 Raw UNC Details 60% Red but with hairlines on both sides. 1861 I Am Ready Wide Awakes and All Seeing Eye reverse struck in Copper. Very rare reverse die. Only the fifth example we have seen offered. A Raw MS64 sold for $2,500 in our June 2013 sale. From the Virgil Brand collection. (1000-1500)

Civil War Patriotic Tokens

67 - 152/0 a R10 Raw UNC Details Nicely toned with 10% Red. Reverse is blank without rim and has three oak leaf shaped counterstamps joined at the tips in center. The one and only Patriotic used of the 1861 Benjamin Franklin die and apparently the Plate token for the 1982 4th edition, the 1993 4th revised and even the 2005 5th edition of the Patriotic book. However it was dropped from the listings in the 1993 4th revised edition without explanation and has not returned since with even its photo being excluded from the newest 6th edition. Our guess is because this piece, likely Unique, has not been readily available for study for many years and was assumed to be a fabrication. This example, however, would appear to be full weight and thickness with no sign of tampering, though the reverse shows some natural roughness consistent with an unstruck planchet. The oak leaves often have a military association but the configuration of these counterstamps is unique and remains a mystery. A very important rediscovery. From the Dave Bowers collection. Data: 61 grains, 19.1 mm. (3000-4000)

68 - 153/0 ao R7 Raw MS62 Trace Red on 1847 Large Cent VF. Benjamin Franklin struck over the obverse of an 1847 Large Cent. From StacksBowers November 2015 sale where it brought $1,423. (1500-2000)

069

070

077

69 - 153/0 fo1 Unlisted Raw AU Trace Bright struck of an 1838 Mexican Four Real coin VF or better. Benjamin Franklin struck over the obverse of an 1838 Mexican 4 Real unlisted as such and listed as Unique over a Silver coin (1799 Dollar). A Raw MS63 example over the much more available Large Cent dated 1841 brought $1,400 in our October 2011 sale. From the John J. Ford collection, earlier our February 2014 auction where it realized $900. (1500-2000)

70 - 153/519B e R9 Raw MS63 40% Bright. Benjamin Franklin die trial uniface on a 22mm nearly square White Metal planchet, unlisted as such. When encountered die 153 is almost always counterstamped into a US large cent, this is most likely Unique. From our June 2013 auction where it realized $1,350. (1500-2000)

71 - 154/417 a R7 Raw EF Stephen A. Douglas America. Rare die combination, we sold another Raw EF for $155 in our December 2016 auction. (150-200)

73 - 159/469 a R7 Raw VF Typical strike and die state. 1863 Flying Eagle with Dry Goods And Groceries reverse. Two rare single use Patriotic dies. A raw VF+ Details with a few light marks brought $350 in our August 2015 auction. From the Robert Williams collection. (300-400)

74 - 162/338 a R5 Raw VF With rough planchet as almost always seen with this die combination. Our Army Our Navy with eagle. Rare die combination. From the Dave Bowers collection. Data: 0°, 34.3 grains, 18.7 mm. (75-100)

75 - 165/431 a R5 Raw EF Eagle on Shield with Value Me As You Pleas. The obverse is Higgin's Indiana Primitive version of Scovill's Union shield die 163. Popular spelling error of Please. From the Dave Bowers collection. Data: 10°, 42.3 grains, 19.3 mm. (100-150)

76 - 168/311 a R1 Raw AU Cannon and cannon balls 1863 Army & Navy. (75-100)

77 - 171/428 a R7 Raw UNC Details With obverse stain and small rim nicks. The Peacemaker cannon 1863 with C. L. R. reverse die. Obverse is signed GG for George J. Glaubrecht. Both dies are rare and popular, particularly the Cannon. Most examples of this variety have problems and overall this is one of the most attractive we have seen. A Raw EF Details with obverse scratches sold for $1,250 in our December 2016 auction. From the Dave Bowers collection. Data: 200°, 50.9 grains, 19.3 mm. (1500-2000)

83 - 244/0 a R9 Raw AU Remembrance of 1863 struck in Copper with a blank reverse. This is the prototypical blank reverse type created when two planchets are struck at the same time resulting in two different blanks each with a wavy raw planchet roughness on the blank portion. We have always thought it would be interesting to be able to match up two blanks that were struck at the same time, they should fit together like hand and glove. In this case a blank 381 die is also listed making the logical intended combination 244/381. We suspect fate has eliminated the possible reunion of most blank reverses, however, with this piece hope still lives. From the Dave Bowers collection earlier from Walt Korzick. (1000-1500)

594 - MILLER IL 8N Raw VF+ 1846 surrounded by stars and leaves with a watch face on the reverse struck in Copper with a Plain edge. Some interesting speculation; could the star and leaf punches on this token be meant to represent Biela's Comet which was scheduled to arrive in 1846. Seen approaching in late 1845 it was observed the comet had split, with two portions then visible. Though it has not been seen since 1852 it is thought to have caused subsequent meteor showers. In what seems too strange to be a coincidence, in 1883 Ignatius Donnelly speculated that just such a meteor shower remnant of Biela's Comet caused the Great Chicago fire of 1871. That fire occurred at half past nine on the evening of October 8th when "at apparently the same moment, at points hundreds of kilometers apart, in three different states, Wisconsin, Michigan, and Illinois, fires of the most peculiar and devastating kind broke out." This token of course is thought to have been made and used in Chicago during 1846 but has long remained a mystery. Rare and quite intriguing. We sold a Raw VF in our December 2017 sale that realized $177.75. Rulau Ill 100. From Bowers & Merena's November 1990 sale. (200-300)

595 - MILLER IL 40 Raw EF Peter Stumps, Chicago Illinois struck in Brass with a Reeded edge. Popular token featuring a vintage Fireman's Hat thought to have been issued in 1859. We sold a Raw MS63 that brought $275 in our January 2016 auction. (75-100)

599 - RULAU MA Bo 14 Raw AU+ 10% Bright. Henry W. Burr & Co. Rubber Goods 37 Milk St., Boston Massachusetts struck in White Metal with Plain edge, 31mm. Thought to be Unique in this composition as it is usually struck in Hard Rubber. Burr was in business at 37 Milk Street from 1863 to 1866 and consequently it is listed in the Possible Civil War Store Card section of the current Civil War token book. 614 - MILLER NY 239 Raw MS62 30% Bright. Female Preventive Or Morsonic Amulet struck in White Metal 35mm Plain edge. Unlike the more commonly known Boyd's Battery who's wearer was promised purified blood, this Amulet was apparently worn or carried by a pregnant woman to assure a male (More Sons) rather than a female birth. This piece is White Metal while most others were made in three layers, two brass with a lead or other white metal center. Perhaps that unusual composition was needed to generate the needed magnetic or electric fields required to perform the advertised task. Possibly made for collectors or as a die trial, exceedingly rare and one of the classic rarities in the Merchant token series that is only represented in Rulau with line drawings. We sold a Raw MS62 of the Brass sandwich type in our March 2008 sale for $3,300. From John Ford and F. C. C. Boyd collections March 1958, earlier from our December 2017 sale where it realized $1,300. 688 - MILLER PA 203W Unlisted Raw VF+ Industrial Works Philadelphia Pennsylvania with George Washington reverse die struck in Copper Plain edge 22.5mm. Completely unlisted and presumably issued by the Bement & Dougherty Industrial Works that operated in Philadelphia during the 1860s. Steve Tanenbaum, the tokens former owner, thought this to be Unique and a Civil War token. The reverse die is the obverse of Baker 280 / GW-813. That token has Civil War Patriotic die 349A featuring cannons and flags. Despite this, Musante followed Rulau and Fuld to date as circa 1870. Additionally, the merchant is ambiguous enough to defy concrete attribution. Finally, if it is Bement & Dougherty they were in business outside of the War years. Regardless a very important unlisted Washingtonia merchant token, quite possibly Unique. From the Steve Tanenbaum collection. (400-500)

764 - Baker 638 R8 Raw MS63 George Washington Perseverance 5 Extends a Hearty Welcome. Thought to be a US Mint Medal issued in the 1861-1867 time period for the Perseverance Hose Company Number 5 of Philadelphia Pennsylvania. Julian lists the Abraham Lincoln version, CM-25, stating 100 were struck in Silver only, during 1867 to commemorate Lincoln's visit to the fire company in 1861. Musante lists this version in Copper and Nickel, dates them to circa 1865, calls both Very Rare and was even forced to use composite photos. Formerly listed as a Civil War Patriotic Token, 122/462, but delisted due to the 1867 date in Julian related to the Lincoln version. Very rare and collectible in many fields. GW-762, Julian CM-25A. From the Dave Bowers collection. (500-750)

765 - Bolen JAB-26 CU Raw MS63 20% Red. Thomas Jefferson Equal And Exact Justice To All Men struck in Copper 25mm on 2.7mm thick planchet and as such an Original from 1867 and one of just 14 struck. (400-500)

766 - Lincoln 25 Mystery Raw MS62 20% Bright. Abraham Lincoln 25 In God We Trust (around bearded bust right) // United States Of America For Ever Inseparable 1864 (around eagle). A somewhat mysterious token. It would appear to be a political campaign item from 1864 but was not listed in DeWitt or Sullivan while almost certainly known to them. It has 25 under Lincoln's bust that could be a denomination. The size is right for a Quarter and it is struck in Coin Turn rotation rather than Metal Turn. Consequently, some have suggested it is a proposed coin pattern. Whatever it is this is one of the nicest examples we can recall seeing. White Metal 25mm. King 878 Cunningham 15-550W. From Craig Whitford's November 2000 sale. (400-500)
